Dear Mr. Stern:

I wish to thank you for all your help on my personal injury case. I know that, even though cases involving soft tissue injury are not getting the large settlements they did in the past, you were able to get a substantial recovery for me. Not only were you able to get me a good recovery, but your dealings with me were extremely courteous and calming in some very trying moments of my life. You did relieve a lot of the stress which comes with being injured and trying to carry on with my life.

I am writing this letter for your use, and expect it to be shown to other clients, who I know will be just as satisfied with your assistance as I have been.

Sincerely,

Dana Rootes
